SUMMARY

Associate .NET & Database Developer with hands-on experience building enterprise Web APIs, mobile applications, and database architectures using C#, ASP.NET Core, SQL Server, and .NET MAUI. Proven track record in full-stack feature development, complex stored procedure optimization, and third-party API integrations from OJT experience at EVOTECH. Strong foundation in software engineering principles, system analysis, and emerging AI frameworks.

TECHNICAL SKILLS

- **Languages & Frameworks:** C#, MS SQL, ASP.NET Web API, ASP.NET Core / MVC, .NET MAUI, Entity Framework Core, Blazor, Microsoft Agent Framework (MAF)
- **Database & Backend:** SQL Server, SQLite, Stored Procedures, Database Normalization, Indexed Views, Relational Schema Design.
- **Tools & Platforms:** Git, Postman, IIS, Swagger, Firebase, Unity, Google Maps API, EF Core Power Tools

PROFESSIONAL EXPERIENCE

EVOTECH Software Solutions Inc. | *Malabon City, Philippines*
Junior .Net Developer (Project-Based) | April 2026 – June 2026

- **Researched and engineered an AI Assistant** for a Philippine-based HRIS platform to streamline employee querying and document workflows.
- **Developed AI-powered chatbot features** utilizing **Microsoft Agent Framework (MAF), OpenAI APIs, ASP.NET Core, and Entity Framework Core**.
- Implemented backend pipelines for **RAG-style database retrieval, automated file analysis, and NL-to-query functionalities** for complex HR processes.
- Collaborated directly with cross-functional development teams on system debugging, prototype testing, and iterative AI performance improvements.
- Participated in enterprise client meetings to lead requirement gathering, process mapping, and workflow analysis for multi-organizational deployments.

EVOTECH Software Solutions Inc. | *Malabon City, Philippines*
OJT Software Developer Trainee | Feb 2026 – April 2026

- Engineered core Human Resource Management System (HRMS) modules using **ASP.NET Web API, .NET MAUI, SQL Server, and SQLite**.
- Authored dynamic stored procedures and indexed views to validate business logic, normalize enterprise data schemas, and optimize query performance.
- Developed approval workflows for Leave, Official Business (OB), and Overtime (OT) requests with real-time dynamic validations.
- Integrated Google Maps API, medical certificate upload pipelines, and automated HTML email notifications.
- Deployed backend endpoints to local IIS environments and conducted API integration testing via Postman.

PROJECTS

I AM: AR Human Anatomy Mobile App (Capstone) | *Unity, C#, Firebase, Augmented Reality*

- Led project architecture and development for an interactive 3D anatomy mobile application featuring layer-based exploration.
- Integrated Firebase for live user authentication, performance analytics, and real-time data sync with a teacher monitoring web portal.

EDUCATION

STI College Caloocan | *Caloocan City, Philippines*
Bachelor of Science in Information Technology | *Batch 2022 – 2026*
